

CROSSFIELD CHRONICLE

VOL. XXIII. No. 31

CROSSFIELD, ALBERTA, AUGUST 27th, 1930

PRINTED AT THE PRESS

The money people pay for things is not as important as the satisfaction they get from them.

The more one pays for an article, the more he thinks of that article.

If you buy a piece of equipment that offers a life-time of satisfactory service, the price is a small consideration.

If you haven't looked over our line of

Monarch Ranges

do so now, and let us tell you about the easy way they can be bought.

The price may seem high but value considered, they are the cheapest article in the store.

Grandmothers Entertained By Floral U. F. W. A.

The August meeting of Floral U.F.W.A. held at the home of Mrs. Orville Bills was one of the nicest meetings of the year. "It was Grandmothers Day" and ten grandmothers accepted the invitation of the Local and were present, besides a number of visitors and the members; making about 30. The spacious room was decorated with lovely roses, sweet peas, etc., the gift of Mrs. P. Paulson of Calgary.

The meeting was opened with the singing of "Silver Threads Among the Gold," and a hearty applause of welcome to the grandmothers and visitors followed. The roll call was answered by "Something you can remember about your grandmother."

After the business of the meeting there was another song, "Loves Old Sweet Song" and Mrs. Scholefield then read Mrs. Price's paper on Immigration, which was very complete and interesting, telling what part Alberta had taken in this particular cause. Mrs. Bills, Sr. read a poem on "Grandmother," which was very much enjoyed. "Auld Lang Syne" was the then sung and the meeting adjourned.

A social hour then followed and the hostesses for August, Mrs. Ableman, Mrs. Ian Laut, Mrs. Fitzgerald and Mrs. Montgomery provided an excellent lunch, served by the granddaughters who were present: Misses Edna Ableman, Sylvia and Ruth Richardson and Ruth Bollick. An especially nice feature of the lunch a grandmother cake, a lovely 3-layer cake, with a lighted candle for each grandmother present.

It was a real pleasant afternoon, and those present who are not grandmothers will look forward with pleasure to the time when they are; if they can "grow old" and lovely as did all the grandmothers who were present Aug. 13th, 1930.

Those present from a distance at the U.F.W.A. meeting were: Mrs. Bills, Sr., Mrs. Bollick and Mrs. McKeeman of Van Nuys, California; Mrs. Treca, Wetaskiwin, Mrs. G. Huser and Mrs. P. Pallesen, Calgary.

Local and General

Get your stationery at the Chronicle office.
Misses Beryl Moore and Carrie Bottrel of Vancouver, B. C. were visiting Kathleen Mair last week.

Mr. Halliday of Toronto is visiting his nephew Mr. A. A. Haliday.

Mr. G. Murdock returned home on Sunday from Calgary and is able to be around again after his recent accident.

Miss M. Coates of Melita, Man. was a week-end visitor at the home of Mr. and Mrs. T. M. Mair.

Mr. and Mrs. Jas. McCrea of Vegreville, returning from a motor trip to the Coast, paid the Chronicle a visit on Monday.

Mrs. A. H. Miller and son Lexy are motoring back from California, and are expected home today (Thursday).

Owing to the outbreak of infantile paralysis, it was found necessary to postpone indefinitely the band concert advertised for Sunday afternoon last.

J. P. Winning returned from Empress on Tuesday, where he been relieving the manager of the Bank of Commerce at that point for the past two weeks.

Mr. and Mrs. J. R. MacAulay and son D. H. MacAulay of Montclair spent several days last week visiting their daughters, Mrs. W. H. Miller and Mrs. Margaret Clay.

Every Precaution Taken To Prevent Spread of Paralysis

The first case of infantile paralysis in this district was reported on August 13, when a boy 11 years of age, residing 14 miles west of here was stricken with the dreaded disease. It appears that he was taken ill on August 6th and the doctor had not been called until August 13th, when paralysis had set in.

Two cases were reported in town on Saturday morning. Dr. Whillans was called in a few hours after the children had taken sick, and the serum was given immediately. At the time of writing on Wednesday, both youngsters had practically recovered.

There are three other cases in town that are under suspicion.

Dr. Whillans, Medical Health Officer, has put a ban on all public gatherings, and as a consequence, churches, parks, etc. will be closed until August 30th in Crossfield and district, which includes the south half of Rosebud and Beaverdam Municipalities. Also all children are to be kept in their own yards.

All suspects of Infantile Paralysis are to be reported at once to Dr. Whillans, M. H. O.

HERE and THERE

Crossfield Chautauqua dates are—Oct 29-30-31 and Nov. 1.

Owing to the early harvest this year the Wednesday half-holiday has been done away with and local stores remained open on Wednesday afternoon.

A lone gunman robbed the Bank of Montreal Elbow Park branch, Calgary at noon on Wednesday and got away with between \$7,000 and \$8,000 in bills.

Hail west of Didsbury on Sunday damaged 3,000 acres from 5 to 50 per cent, hail 15 miles west of Carstairs damaged five square miles to 40 per cent loss.

The department of public works is now completing the application of a coat of oil to the entire length of the Edmonton-Calgary highway. This is the second oiling this season, and will carry through until snow comes again.

Local and General

Mrs. Gazeley was a visitor to the city over the week-end.

Mrs. J. B. Thompson of Calgary spent the first of the week visiting Mr. and Mrs. P. C. Griffiths.

Mrs. E. Devins left on Tuesday for her new home at Parkland.

Mrs. R. H. McFarlane of Basano has been renewing old acquaintances during the week.

Mr. and Mrs. P. Griffiths moved into the Whitfield house on Hammond Street on Wednesday last.

Mr. and Mrs. S. Scott moved into the Jessemian house on Monday, which has recently vacated by the Donalds. Art Sackett having recently renovated the interior of the house.

Mrs. D. Bills and daughters Mrs. McKeeman and Mrs. J. R. Bollick and Ruth, who been visiting here for the past three weeks left on Monday by motor for their home in Van Nuys Cal. Doug. Bills says he is going to stay here until the snow comes then back to the orange belt.

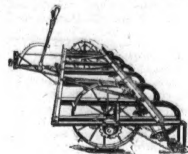

Mrs. H. Shaw and family arrived home on Friday night last, after spending a vacation at the Coast. We hear Jim was so tickled to have them home he could not wait until they arrived in Crossfield, he took the night bus to Calgary to meet them there.

The Russian Menace

Soviet Russia presents a menace to Great Britain, Canada, the United States, in fact, to all countries which depend for their prosperity upon a world export trade. The Russian menace of today is not one of impending war fought by armies and navies, rifles, cannon, tanks, bombs and aircraft, but at a great economic struggle for world trade, and of the countries most likely to be seriously affected by such a struggle the British Commonwealth of Nations, and the United States come first.

Prior to the Great War it was frequently contended that wars between nations were brought about by armament manufacturers and capitalists of industry seeking territory within which they might enjoy more or less exclusive rights of trading. The Great War itself, was, in the final analysis, caused by Germany's ambition to secure larger world markets and a greater colonial empire. The German navy was created for the express purpose of challenging the British navy with this very object in view. Germany failed, but in the Great War the old Russia of the Czar disappeared, and in its place there has arisen the Soviet Republics dominated by the communist workers.

The Soviet leaders are absolutely ruthless in their methods, inspired by the ideals of fanaticism, and spurred on by a belief that their ideas of government are the only right ones leading to freedom of the masses as opposed to all other forms of government which they hold are under the control of the hated capitalist classes. To the Soviet leaders all methods are right and they will serve to accomplish their purpose. Hence the nature of the economic struggle now confronting the world.

Having seized the property of all the landed and capitalist classes of Russia, having declared it a crime for any person in Russia to hold views contrary to those of the Soviet authorities, and having imposed ultra-communist ideas upon the whole of Russia, the Soviet leaders are now utilizing and working these seized, or stolen, properties with what is to all intents and purposes convict labor. And if there is any shortage of such labor, thousands more are made readily available by trumped-up charges of treason or disobedience to the Soviet, and without trial are thrown into forced labor camps.

Coal, pulpwood, agricultural products, notably wheat, produced under such conditions at a cost against which the producers of no other country can successfully compete, are now beginning to be thrust into the markets of the world. Some tens of thousands of tons of Russian coal have been shipped into Canada; scores of shiploads of Russian pulpwood are being sent to the United States to enter into competition with Canadian pulpwood, pulp and paper; Russian wheat is going to England where it displaces hard Canadian wheat as it is largely of the same hard variety.

And this is only the beginning. The Russian Soviet Government has expended hundreds of millions of dollars within the last few years in the purchase of the most up-to-date agricultural machinery. It has granted concessions to Henry Ford to establish a great plant for the manufacture of tractors in that country; it has engaged the services of the most noted railway and agricultural experts to direct operations in Russia; it has sent commissions of its own experts to foreign lands, and more particularly to Canada and the United States, to study methods of transportation and marketing—all with a view to making an aggressive bid for the trade of the world, and based on methods and costs of production with which other countries with their greater liberty of the individual and higher standards of living cannot hope to compete.

Such, in brief outline, is the serious nature of the menace to Canadian and United States business in the Russian situation. United States labor and United States industrialists are strongly battling the unfair Russian competition. Canada may be willing to while a country may be willing to face the competition of other countries, both at home and abroad, upon equal terms, no country can compete with conditions such as those now prevailing in Russia and survive. It is apparent that Russia, having failed in its political attempts to sovietize the world, has now embarked upon an economic conquest.

Under these circumstances, the approaching Imperial Economic Conference, in London, England, is fraught with greater importance than any previous Empire Conference. Hon. C. A. Dunning announced that his budget was an indication of the spirit in which the King Government intended to approach that Conference, but the King Government has been defeated, the responsibility now rests with Premier Bennett, in collaboration with Premier Ramsay MacDonald, and the other Dominion Premiers, to work out an economic policy for the Empire which will enable all its component parts to successfully resist the Russian menace, and at the same time develop intra-Empire trade to its fullest possible extent. Every Canadian will wish Mr. Bennett well in his important task.

Deceiving the Customer

These Berry Boxes Were Worse Than the Standard False Bottoms

In the "museum" of the Dominion Fruit Branch, at Ottawa, is a curio of unusual interest. It is a full tray of twelve blueberry boxes, each box of which is nearly half-filled with blocks of board, bits of field trash and old wood. It was picked up by the inspection service through the complaint of a purchaser on a large Eastern market. To the customer to whom these boxes were sold it was a case of "caveat emptor" with a vengeance.

The French Government is being urged to rivet to the top of the Eiffel Tower a 22-foot flag tower, making it again the world's loftiest structure, a position now occupied by the Chrysler Building in New York.

He—"About a half mile from the crossing he put on a terrible burst of speed to beat the train to it."

She—"And did it get across?"

He—"Yes, they put one on his tombstone."

ZAM-BUK
Clears the Skin Of
ECZEMA & RASH

An honest man is one who says, "I don't know," instead of saying, "Look it up yourself, son, and you'll remember it better."

A good home is worth all you put into it in time, money and effort.

Crosses Canada On Bicycle

Young French-Canadian Wins Wager Of \$1,000 On Reaching Vancouver

Noel Marcell, young French-Canadian from Halifax, wheeled his battered bicycle into Vancouver, on August 8th, and won a wager of \$1,000.

Marcell left the Atlantic coast April 15, with \$15 in his pocket and a supply of food on the crossbars of his bicycle. He was to reach the Pacific before midnight, August 15.

Notwithstanding the fact that he wheeled his machine into a ditch near Lytton and spent two weeks in a deserted shack, he was an injured back and leg, the wiry little Canadian reached his goal one week ahead of time.

Have Minard's Liniment on your shelf.

Production Of Cordage

According to a report by the Dominion Bureau of Statistics, the value of production in the cordage, rope and twine industry in 1928 was \$11,798,165. This compares with \$10,839,961 in 1928, the increase in value being \$958,204, or 8.84 per cent.

An honest man is one who says, "I don't know," instead of saying, "Look it up yourself, son, and you'll remember it better."

A good home is worth all you put into it in time, money and effort.

Agricultural Wealth Of Canada

Gross Agricultural Wealth Of Dominion Nearly Eight Billion Dollars

The gross agricultural wealth of Canada for 1928 is estimated at approximately \$7,978,635,000, a summary published recently by the National Revenue Department.

Last year the total revenue from agriculture was \$1,087,213,000, of which Ontario accounted for \$599,434,000; Quebec, \$320,452,000; Saskatchewan, \$309,308,000; Alberta, \$228,589,000; Manitoba, \$134,095,000; British Columbia, \$55,235,000; Nova Scotia, \$45,558,000; New Brunswick, \$39,854,000, and Prince Edward Island, \$28,723,000.

The two principal items which go to make up the total of agricultural revenue are field crops, valued at \$970,760,000, and dairy products with an estimated value of \$290,000,000. Farm animals are third with a value of \$210,437,000, and poultry and eggs fourth with a value of \$109,344,000.

Was Run Down Now Well Again

Takes Pleasure In Recommending Dr. Williams' Pink Pills

To the woman in the home illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she is easily tired, is depressed and nervous and has no appetite. In a word she is anemic and badly needs help—the health-giving Dr. Williams' Pink Pills can give her. These pills make rich, red blood which brings new strength and energy. Concerning them, Mrs. Paul R. L. Cohn du Banc, says: "I was badly run down, slept poorly, and awoke as tired as when I went to bed. My appetite was poor and I felt miserable. I took six boxes of Dr. Williams' Pink Pills and they completely renewed my health."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Remarkable Invention

Teletypewriter Designed To Speed Up Newspaper Production

Successful use of the teletypewriter, one of the newest inventions designed to facilitate newspaper making, was announced by West Coast Publishers, Inc., White Plains, N.Y., headed by J. Noel Macy.

Seven newspapers in the country are using the instrument, by which news stories are sent out by electric impulses and almost simultaneously translated into type, ready for publication.

Readers of the Yonkers Statesman, Mount Vernon, Daily Argus, New Rochelle Standard-Star, Port Chester Daily Item, Tarrytown Daily News, Ossining Citizen-Sentinel and White Plains Daily Press thus are enabled to peruse more late "breakers" than heretofore has been possible. Speed, ever an essential in journalism, is vastly increased.

The instrument was invented by Walter W. Morey and developed by the Collaboration of Edward E. Kleinschmidt, Frank E. Gannett and others.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

British General Election

Mrs. David Lloyd George, speaking at a garden party in Wales, prophesied that there would be a general election in the coming autumn. Her hearers were much intrigued by the statement, in view of the key position occupied by the speaker's husband, Liberal opponent in Parliament of the Labor Government.

A letter carrier invented the first screw-propeller for steamships; an undertaker invented the slot-machine telephone; and a barber first thought of fire-escape.

Air Pilot—"By Jove, I forgot to give you a parachute."

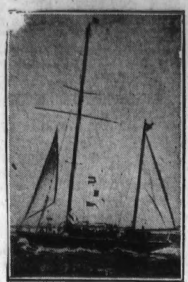

Ginsberg—"S' all right. It ain't goin' to rain."

The Handy Bottle

Minard's is the sure relief in the Burned Bottle. For strains, burns, bruises, boils and blisters.

MINARD'S

SHAMROCK V.

Sir Thomas Lipton's yacht "Shamrock V." reported from Horta, Azores Islands, missing five days by steam yacht "Eria," which was escorting it to Newport, U.S.A., for America's Cup race, and lost sight of in rain squall, but now safe.

Abolish Tariff Advisory Board

New Body To Be Constituted Under Authority Of Act Of Parliament

The Tariff Advisory Board has been abolished and will be replaced by a new body to be constituted under authority of an act of parliament. Announcement to this effect was made by Premier R. B. Bennett.

The board now existent was constituted by an order-in-council, and not through statutory legislation, in April, 1926. This order-in-council has been cancelled by the new government, and the body to be created will function under authority granted to it by both the House of Commons and the Senate. Legislation for the establishment of the new board will be drafted shortly, and will likely be introduced at the next session of parliament.

The abolished board began its work early in May, of 1926, with Senator Geo. F. Graham as chairman, and Alfred Lambert, Montreal, with D. G. McKenzie, now a member of the Manitoba government, as associate members. Following the resignation of Senator Graham, Mr. Moore became chairman of the board; and Mr. Lambert and Mr. McKenzie who resigned, were replaced by Hector Raelin, Montreal, and Frank Jacobs, de Winton, Alberta. Mr. Moore resigned on the eve of the general election to contest the constituency of Ontario, in which he was elected as Liberal Candidate. The chairman of the board was in receipt of a salary of \$10,000 per annum, and his colleagues \$4,000 yearly.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? It comes when his soft and gentle influence relieves the tightened, choking tubes? It has made asthma affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Empire Preference

London County Council Gives Preference To Empire Products

There is special interest for Canadian farmers in a communication received by the Dominion Department of Agriculture from a London, England, buyer of foodstuffs. "The London County Council has laid down for some time past now that preference shall be given to Empire foods. In furtherance of this policy it has given permission to those responsible for buying foods to pay up to 10 per cent more for an Empire article than for a similar quality foreign product," he states. The London County Council provides food supplies to over 80 large hospitals and 70 institutions of various kinds.

For all Skin Abrasions—Minard's Liniment.

B.C. Industrial Conditions
The industrial payroll of British Columbia, for 1928, is estimated at \$192,092,349, a new high record, in the annual report of the provincial department of labor, the most accurate thermometer of industrial conditions in the province, as issued recently. The total is an increase of \$8,964,462 over the 1928 figure.

A thousand American chefs have chosen petit marmite, potirine de volaille, pommes-de-terre olivette, surprise, and Mocha fritte for their annual banquet.

In other words, soup, fried chicken and hashed potatoes, icecream and coffee!

Seedy (reading) — Say, Hank, what's er haberdasher?
Hank—What, don't yer know wot er haberdasher is? Didn't yer ever have no haberdash? A haberdasher is er man wid a habit of dashin' about.

Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Live Stock Sales

New System Of Reporting Sales and Prices Has Been Adopted

A new system of reporting live stock sales and prices has been put into effect in the Stock Yard and Market Reporting Services of the Dominion Live Stock Branch. The purpose of the new system is to afford a more adequate indication of sales and prices in relation to beef cattle coming on the market. The principal change brings to the top of the list the section of beef cattle in greatest demand, providing a clear indication of the volume and price range of the popular light cattle, and providing the producer with a more adequate indication of grade and price than was possible under the old system.

Earthquake Area Extended

Heavy Loss Of Life Reported On Shores Of Caspian Sea

A terrific earthquake killed 500 persons and injured 4,000 others on the northeast shores of the Caspian Sea, a Riga dispatch to the London Morning Post states.

The towns of Tchapaevov and Vriksay were reported destroyed. The bodies of 30 children were recovered from the ruins. A children's home at Tchapaevov was destroyed by the shocks. The Morning Post reports said.

The dispatch said 200 houses at Tchapaevov were razed, and the church destroyed by the quake. The Ural River was reported to have flooded the town.

Keep Douglas' Egyptian Liniment marketable in its attack. o-ETSH always in the stable, ready for immediate use. Removes proud flesh and inflammation. Thrush or Hoof Rot, and infection of cow's teat.

Says Theatres Are Doomed

George Bernard Shaw Sees Talking Pictures Usurping Legitimate Stage

The doom of the theatre has been sealed, George Bernard Shaw said recently, upon signing his first talking picture film contract calling for the filming of his play, "How He Lied To Her Husband."

"I am afraid the poor old theatre is done for," Shaw said. "The theatre may survive as a place where people are taught to act; but, apart from that, there will be nothing but the talkies."

"All my plays will be made into talkies before long. I signed the contract today because I wanted some money."

"Shaw said "Arms and the Man" probably would be filmed next. It is one of his more famous comedies.

Habibut Being Depleted

Warning Is Issued Regarding Situation In The North Pacific

Warning that the great halibut resources in the north Pacific were rapidly being depleted, was conveyed to Canada and the United States in a special bulletin issued by the international halibut commission and released at Victoria by Chairman John P. Babcock.

The report states that immediate cessation does not seem imminent but that it is no longer possible to believe that the yield is permanent because it has been maintained until the present time.

A Year's Work

A year's work in the division of chemistry, was the Department of Agriculture, at Ottawa, included the examination of 4,263 samples of soils, manures and fertilizers, forage plants, fodders and feeding stuffs, waters, samples of milk and canned foods, and of miscellaneous subjects, including dairy products and insecticides.

Persian Balm—the peerless aid to loveliness. Delightfully fragrant. Dainty to use. Leaves no stickiness. A little gentle rubbing, and it is swiftly absorbed by the tissues. Tonic in effect. Soothes and dispels roughness and chafing. Keeps skin soft, moist and velvety-textured. Unrivalled for chaps, distention and refinement. Used by lovely women everywhere to preserve and enhance their natural beauty.

Dairy Trade With Orient

Following recent experimental shipments of certified milk from Vancouver to Shanghai and other Oriental points, a regular service has been established, shipments being carried in refrigerated space and being eagerly sought by European citizens across the Pacific.

HOW ONE WOMAN LOST 47 POUNDS OF FAT

"I have been taking Kruschen Salts for nearly 8 months. I have continued on a teaspoonful in warm water every morning. I then weighed 217 pounds. I was so bothered with pains in my back and lower part of abdomen and sides.

Now I am glad to say I am a well woman, feel much stronger, younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say.

I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it."—Mrs. S. A. Solomon.

"P.S.—You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

Don't Let Foods Stale
Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.
Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knifer-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

A Challenge To Canada To Put British Empire In Forefront Of Airship Transportation

A challenge to Canada to take the next step in putting the British Empire in the forefront of airship transportation through the inauguration of a trans-Atlantic service between Great Britain and Canada before the service between Germany and the United States, being planned by Dr. Hugo Eckener, gets under way, was voiced recently by Sir Dennistoun Burney, designer of the dirigible R-100, Sir Dennistoun spoke before the Canadian Club, of Ottawa.

The sponsor of the first Great Britain-to-Canada airship flight asked for the formation of a committee of prominent Canadian business men to investigate the situation and decide whether the Canadian Government and business interests were prepared to back a trans-Atlantic airship service. With the views of such a committee before him, he would be able to lay a concrete proposition before the British Government on his return to London, England.

He was prepared, he said, to undertake at once the construction of an airship with a cruising speed of 80 miles per hour, carrying fuel for a 6,000-mile flight together with 100 passengers and 10 tons of mail. With a fleet of such vessels a regular service between Canada and Great Britain could be maintained, taking 2½ days for the westward crossing and two days for the eastward. He named \$1,000 as the initial passenger fare, but predicted a gradual reduction until it would compare favorably with steamship fares.

It was time to take a bold forward step, Sir Dennistoun asserted. If the British Empire was to be knit together culturally, economically and politically, a rapid means of communication had to be provided. A service to Canada offered better immediate prospects of success than the proposed eastward service to India and Australia.

Before the proposal could be put in effect, he said, there were financial and political handicaps to be overcome. Referring to the presence of Mr. Bennett and Mr. King, he said that the co-operation of both parties the political difficulties would disappear. On the political side, he mentioned the necessity of long-term mail contracts and building loans at reasonable interest rates. On the financial side, all that was required was money, and if the business men of Canada got behind the scheme there would be no difficulty. There were no technical difficulties.

Dr. Hugo Eckener, designer of the Graf Zeppelin, Sir Dennistoun said, was organizing a German-American company to operate a service between Germany and the United States. If Canada would co-operate the Canadian service would be in operation before the German.

"We could promise regularity of service by establishing an emergency base some hundreds of miles south of Montreal," said Sir Dennistoun. "Would it not be a great thing for Canada, if, during the winter months, mails and passengers could leave Toronto or Montreal and arrive in London, England, in 48 hours? Now that the R-100 has flown to Canada, you can see it for yourselves. The commercial interests of Canada and the Canadian government have some solid basis on which to form their judgment."

"I want a revolver—for my husband."

"Did your husband say what make of revolver?"

"No, but I don't think that matters. He doesn't even know I'm going to shoot him."

Hurricanes in the West Indies sometimes bring to some of the small islands birds never before found there.

Frozen-egg plants in Shanghai, China, are operating at capacity.

"I could have had a fine job: £25 a month with a fortnight's holiday with pay."

"And what came of it?"

"Nothing. I wanted the holidays before beginning."—Pages Gates, Yverdon.

W. N. U. 1851.

For Airship Travellers

Shower Baths Will Be One Of The Comforts To Be Installed

Shower baths will be one of the comforts to be installed on the future by Sir Dennistoun Burney, who addressed the Advertising Club of Montreal recently.

On her flight to Canada, the R-100 gathered up tons additional water from rain and cloud moisture. This involved a saving of \$12,820.50 worth of hydrogen gas, since ordinarily the captain is forced to release hydrogen to compensate for the loss in weight of gasoline fuel as it is consumed.

Helium, a non-inflammable lifting gas, is preferable to hydrogen for use in airships, according to airship experts. Canadian geologists say that geological formations in the neighborhood of Hudson's Bay and Labrador indicate strong possibilities of producing helium, which is extremely favorable to any airship service between Europe and Canada.

Shaw's Early Literary Effort

Nearly One-Seventh Of Canada Lies Being Published For First Time

George Bernard Shaw, who began his literary career as a novelist a half century ago before turning to playwrighting, is to appear again in the role of a fictionist. The dramatist's first novel, written 41 years ago, but laid aside when a publisher could not be found for it, is to appear in September, it was disclosed by William H. Wise, New York publisher.

This early work will be included in a collected set of Shaw's writings, the first five volumes of which will appear simultaneously in London and New York. The author was 23 years old when he penned "Immaturity," which was refused, Mr. Wise said, by some 60 British and United States publishers.

(By Anabelle Worthington).

This little, capote frock may be for playtime or for "dress-up" occasions, according to the fabric chosen for its development.

It's very French! It closes at either shoulder 'neath the perky bows.

The scallops provide effective trim. It is buttercup yellow organdie. The scallops are accented by bias organdie in soft cocoa brown shade. The bows of taffeta ribbon match the binding.

It's very quaint and pretty in tiny checked gingham and white with scallops bound in plain orchid. The bows are omitted and replaced with two decorative ball-shaped pearl buttons at either shoulder.

Style No. 2649 is designed for wee mads of 2, 4 and 6 years.

Experiment With Reindeer

To Supply Natural Source Of Food For Eskimos Of Northern Canada

The re-stocking of the Canadian Arctic to supply a natural source of food for the Eskimos, is engaging the attention of the North West Territories and Yukon Branch of the Department of the Interior.

A. E. Forsild, who investigated the possibilities of the Western Arctic as a home for reindeer, has left for the west coast of Hudson's Bay, on a similar mission.

Mr. Forsild and his brother, R. T. Forsild, were commissioned by the Government, some years ago, to carry out an investigation in the western Arctic, to ascertain whether the country produced enough moss, lichen and other reindeer fodder, to support these animals in any number. The brothers reported favorably, and the Government bought 3,000 head from Loman Brothers, of Alaska. These reindeer are now on the long trek round the northern corner of the continent, bound for Kittigauk, at the mouth of the MacKenzie River.

The Canadian Government saved the buffalo from extinction from North America by similar measures years ago, and now has so many buffalo that they are being distributed all over the North West. It is hoped that the same success will attend the reindeer experiment, and that the natural increase of the Kittigauk herd will enable the stocking of the territory west of Hudson Bay. The latter problem depends on the herbage of the area north of the so-called barren lands.

Eskimos Play Golf

Ancient Scottish Game Introduced To Native North Of Churchill

Eskimos play golf—not a variation of the game like "African golf," but the real thing as practiced in Scotland.

Rev. Donald Marsh, graduate of Emmanuel Theological College, Saskatoon, who has already spent three years as a missionary to the Eskimos, has gone north again after a holiday.

Rev. Mr. Marsh introduced the game at Esko Point, 200 miles north of Churchill, last year. This time he took a stock of golf clubs, balls and tees with him.

Goes To Japan

Miss Beatrice Shand, of Montreal, To Be In Charge Of Tokio School

Miss Beatrice Shand, of Montreal and Toronto, has been chosen principal of the international school for children of foreign residents at Tokio, Japan. Miss Shand will take up her duties upon the opening of the term, September 15.

Miss Shand is a graduate of Acadia College, Wolfville, N.S., and has taken post-graduate courses at McGill University, Montreal. She is also a graduate of Miss Hunter's school for kindergarten training of New York.

To Inspect Fisheries

Hon. D. G. McKenna, Minister of Natural Resources, for Manitoba, is travelling north to inspect fisheries of the province. His visit will touch stations, properties and fish ladders along the shores of lakes Winnipeg, Manitoba, and Winnipegosis, and adjacent waterways.

You are no longer young if you still desire to read a book after somebody tells you it is instructive.

TEE OFF WITH BOW AND ARROW.

The arrow beat the golf ball to the cup in a contest staged recently on the Banff Springs Hotel Golf Course, when Ted-Wah Monee (Lone Walker), and Umbaka Wah-Zee (Lone Eagle), lined up in a foursome against William Thomson, professional of the course, and his daughter Mrs. Peggy Dalgleish, former Alberta Lady Champion, over nine holes. The Indians used bow and arrow while the golfers played with the usual clubs and ball. On the green the Indians shot at a four-inch disc set upright on the cup. Both sides were even at the eighth, and then the Indians won on the ninth. The unique contest excited much interest and enthusiasm among the hotel guests, who formed a large gallery following the play.

Judges For Community Progress Competitions

Competitions Among Rural Communities In The Three Prairie Provinces

Outstanding men and women, conversant with conditions throughout the prairie provinces, have been selected by the Canadian National Railway to judge competitions among rural communities in the three prairie provinces, which are of European origin, to be held annually for a period of five years, with three substantial prizes of \$1,000, \$500, and \$250, respectively, to be awarded each year in each of these provinces.

The judges are: Manitoba, Dr. John Mackay, Principal, Manitoba College; Brother Joseph Fink, Principal, Provencher School, St. Boniface, and Mrs. David Watt, Birtle, who has long been prominent in women's institutions. Saskatchewan: Dr. W. C. Murray, President, University of Saskatchewan; Dr. W. J. Ross, Department of Sociology, Dartmouth College, Hanover, N.H., and Mrs. Violet McNaughton, organizer and former president of the Women's Grain Growers' Organization in Saskatchewan, and editor of the women's section, Western Producer, Saskatoon, Alberta: Dr. R. C. Wallace, President, Alberta University; Dr. W. H. Fairchild, Superintendent, Experimental Farm, Lethbridge, and Mrs. R. B. Gumm, Lloydminster, prominent in the women's section of the Grain Growers.

The communities, which, through the co-operative action of its people, shows the best schools, the most regular attendance of pupils, the largest percentage of children going on for secondary or university training, and takes the keenest interest in matters of public health, social welfare, music, arts and handicrafts, and enthusiastically supports community organizations such as agricultural societies, co-operative marketing pools, women's institutes and home makers' clubs, libraries, etc., which evinces the keenest interest and reveals the greatest progress in the improvement of agricultural methods, will be the winner of these substantial prizes.

Saskatchewan Fur Farms

Now 222 Registered Fur Farms In The Province

Rapid increase in the number of fur farms in Saskatchewan is indicated in a recent statement issued by the provincial game branch. There are now 222 registered fur farms being operated in the province, 101 of which are fox farms.

Under provisions of the Game Act, such farms must operate under a government permit. The number of farms of each species of fur-bearers allowed: Fox, 101; badger, 64; mink, 59; muskrat, 41; raccoon, 13; coyote, 13; rabbit, 3; fisher, 3; beaver, 3; skunk, 3; martin, 3; weasel, 3; bear, 2. In addition, four fur farm leases are being operated, while 20 are pending.

The Interpreter

"Do you believe in dhrames, Riley?"

"O! do," was Riley's reply.

"Phwat! it is sign of if a married man dhrames, he's a bachelor!"

"It's a sign that he's going to meet a great disappointment when he wakes up."

Caribed Caverns are no longer a National Monument but are a National Park.

The average income of people of the Philippines is \$35 a year.

Canada's Claim To Arctic Area Between Mainland and Pole, Will Be Jealously Guarded

Registered and Certified Seed

New Regulations Are To Apply At Royal Winter Fair

An important forward step to promote the commercial production and distribution of registered and certified seeds in Canada has been taken by the Royal Winter Fair, to be held in Toronto, November 19 to 27. A new class has been added to the Royal program for seed growers of wheat, oats and barley, confined to competitors whose growing crops have been inspected in the field under the provision of the Dominion Seeds Act. Growers must have at least 50 bushels of registered and certified seed grain for sale in a commercial way. The actual exhibit will consist of one-half bushel sample and may be taken from the current crop or that of the previous harvest.

By the new conditions the prize winning half bushels must come from a 50 bushel bulk of the same quality and must be entered in the unbroken package sealed by an accredited inspector at the time he inspects and seals the bags or other containers of the main commercial crop. Briefly this means it will be possible for farmers to buy seed grains by sample with official assurance that the bulk will equal sample. Prize winning in the past did not give this guarantee, because entrants could hand pick the best half bushel from a large quantity of mixed grain.

Over 80 prizes are offered. The spring wheat classes include the Marquis group, Garnet, Reward, Huron and Marquis. Those varieties of winter wheat, oats and barley approved for registration are eligible. Barley may be six-rowed or two-rowed. The 1930 dates for the Royal Winter Fair are November 19 to 27.

Raspberries Yield Well

Grows In Wild State From Coast To Coast In Canada

Horticultural experts of the Dominion Department of Agriculture are authority for the statement that the raspberry is easily the most important bush fruit grown in Canada, and among the small fruits it ranks second to the strawberry. The annual production amounts to some 2,900,000 quarts, having a selling value of roughly \$500,000. This does not take into consideration the production from city lots and back gardens which is very considerable.

At a production rate of 1,500 quarts per acre it would take at least 1,500 acres to produce this crop, and including new plantations the area planted to raspberries is close on to 2,500 acres. British Columbia is the leading raspberry producer, with Ontario a close second. The raspberry is not a commercial crop in Nova Scotia or the Prairie Provinces, but it is cultivated to a profitable extent in every Province of the Dominion, and grows wild from coast to coast and as far north as the delta of the Mackenzie River.

How We Spend Our Time

Estimated That A Man Of Seventy Has Spent Two Years Of His Life Shaving Himself

A Frenchman with a liking for curious figures has been counting up the time that a man ordinarily devotes to common occupations of life. He finds that a man of seventy has usually spent about sixteen years working, twenty-three years in bed, nine years amusing himself or being amused, one year in church, and two years shaving himself. This last portion of time he seems to consider as one of the great wastes of life. But, trying to imagine what we would look like if we all had beards, we are not inclined to agree with him. Even if we did all save some time from shaving there isn't any real guarantee that we would put that time to any better uses.—New Outlook.

Nothing To Fuss About

During the hearing of a case a man began dancing about in the back of the court room, pushing over chairs and generally upsetting things.

"Young man," said the judge, who had a reputation for ironic wit, "you are making a great deal of noise."

"I have lost my overcoat, your worship," said the agitated young man.

"Well, well," retorted the judge, "people often lose their whole suits here without half as much disturbance."

Czecho-Slovakia is developing its air express service.

Rosnoke, Va., has the largest rayon plant in the world.

Canada will watch with a "jealous eye" anything resembling a design on the part of a foreign power to establish itself within the zone lying between her mainland and the North Pole. P. E. Corbett, dean of the law school of McGill University, said before the institute of politics.

Dean Corbett, who addressed the conference on "Problems of Sovereignty in the Arctic and Antarctic," stated that Canada claims all discovered land lying between her mainland and the North Pole, and will probably assert a claim to any land that may subsequently be discovered there.

"Where occupation is not yet possible the Canadian claim is justified by principles of territorial proximity and possible strategic importance," and possible strategic importance," he said. "These principles have never hardened into rules of international law, but they have been urged from time to time as moral and political, if not legal, grounds for the appropriation of unattached lands."

"At the present time, the main interest in the Arctic is in its position as the possible future highway of inter-hemisphere air traffic. The short-cut way between Great Britain and the western part of Canada is across these northern latitudes, and the same is true for the northwestern United States and northern Europe. Landing and refueling stations along the route will be a prime necessity and if such stations in our northern hinterland are to be within control of any one power that court ought to be Canadian."

Dean Corbett stated that the question of internationalizing the polar regions is a moral and political, development in aerial navigation takes place, but that the United States has hitherto displayed almost enthusiasm for such a project and without her it would be foolish to think of any such regime in polar regions.

"In the meantime," he said in conclusion, "Canada, which has what may be regarded as a legitimate expectation of gradual development in aerial navigation takes place, but that the United States has hitherto displayed almost enthusiasm for such a project and without her it would be foolish to think of any such regime in polar regions."

Value Of The American Hen

Poultry Industry Supplies About 10 Per Cent. Of The Total Income

The cow, the sow and the hen are greater farm-income producers, according to United States official ratings, than wheat, about which we hear so much nowadays. The poultry industry, that "mere sideline" which so many farmers neglect, supplied about 10 per cent. of the total income of American farms during 1928. The egg sales were estimated at \$717,000,000 and the sales of chickens brought in \$458,000,000—a total for the poultry industry of \$1,175,000,000 as compared with a total farm income for the nation of \$11,827,000,000. These figures do not include the value of chickens and eggs consumed on the farms—an item which doubtless would itself run into seven figures.

Of Special Interest

The research work of the Health of Animals Branch of the Dominion Department of Agriculture is attracting international attention, particularly in relation to the control and eradication of Tuberculosis, and the control of Bang's Disease. When the members of the British Medical Association visit Canada this summer their itinerary includes a day to be spent in the new laboratories of the Animal Diseases Research Institute at Hull, P.Q.

Belgium is considering a tax-reduction program.

Oxford University, in England, has a wrestling craze.

"Dad, I'm in love with Lottie Motte!"

"Well, I can't blame you, my son, I was in love with her myself when I was your age."—Walter Jakob, Berlin.

THREE DELEGATES APPOINTED FOR LEAGUE MEETING

Ottawa—Canada will be represented at the next meeting of the assembly of the League of Nations by Sir Robert Borden, Senator Thomas Chapais and Hon. Mrs. Mary Irene Parby, it was announced here recently. The assembly meets in Geneva early in September, and before that there will be a meeting of the council of the league. Canada's representative on the council will be Sir Robert Borden as leader of the Canadian delegation.

Sir Robert Borden, Canada's wartime premier, has long been a staunch advocate of the league. He was one of the original signatories of the League of Nations covenant in 1919, out of which grew the league assembly and the council.

Senator Chapais, who resides in Quebec, has won distinction by his historical writings. He is the author of a number of books. He was for some time professor of history in Laval University. He was a minister without portfolio in the Tupper government, in Quebec, and leader of the government in the legislative council back in 1893. He became a senator in 1919.

Hon. Mrs. Mary Irene Parby is minister without portfolio in the Alberta Provincial Government. She represents Lacombe in the legislature. She was provincial president of the United Farm Women of Alberta, for four years. For two years she was a member of the board of governors of Alberta University. In the last two provincial general elections she has been returned as a candidate of the United Farmers of Alberta.

Canadian Butter For China

First Test Shipment Of Dairy Butter Will Go Forward On Sept. 4th. Victoria, B.C.—Close on the heels of a successful trial shipment of B.C. fresh milk to the Orient comes word of a special order for the shipment of prime dairy butter to Hong Kong, now being arranged through the Department of Agriculture.

On September 4, the first test shipment of butter within the knowledge of the department will be sent to the Far East. If the shipment is successful it will be followed by the opening of a considerable market for B.C. butter. The prospect of landing fresh dairy products from this coast has attracted wide attention in the Orient and will be developed on a most extensive scale if the results warrant it.

The butter will be shipped to Hong Kong in care of the Canadian trade commissioner at that point.

Calgary Cadets Win Trophy

High School Cadets Capture United Empire Trophy at Ottawa. Connaught Ranges, Ottawa, Ont.—Calgary high school cadets won the United Empire trophy, open to the cadet team making the highest aggregate score in the Tyro MacDougall, bankers and cadet matches at the Dominion of Canada Rifle Association meet here. The Calgarys scored a total of 973 points, as against 966 for Hamilton, Ont. Central College "A" team, and 963 by Winnipeg Highland Collegiate.

Infantile Paralysis In East. Oshawa, Ont.—Two deaths from infantile paralysis were reported by the health authorities here recently. The victims were Eddie Curtin, 10, and Albert W. Ferguson, the same age. No new cases have been reported by medical officials, and the number now remains at 12. There has been no change in the situation in East Whitby township.

Adopt Rotary Plan. Windsor, Ont.—With the object of providing at least some employment for its members, and to tide them over the present period of depression, the local bricklayers' union is attempting to introduce a "rotary" system of employment on construction work in the border cities. The scheme would work one week and be idle the next.

Motion Picture Operator Killed. Edmonton, Alberta.—V. A. Crawford, Westlock, Alberta, photographer and motion picture operator, was killed instantly when his car swerved off the roadway a mile from Giverville di Barre, and upset in the ditch. According to Alberta provincial police reports, Mrs. Crawford escaped serious injury.

W. N. U. 1851

Tribal Unrest Spreading

British Forces In India, However, Appear To Be Handling Situation. Peshawar, India.—The spirit of tribal unrest appears to be spreading on the northwestern frontier, with British forces tightening the defence by increasing aerial bombing operations and rushing fresh troops northward.

Most of the Afridis who have been besieging this strategic city for a week have withdrawn under constant bombing, but meager reports from the countryside indicate that they have spread in all directions and that all branches of the tribe have taken up arms.

An indeterminate number of Drakhs have joined the Afridis, a party identified as Massalos attacked Badama Post, and the Chankennils were on the war path, until the air force informed them that their own villages were being bombed unless they ceased their depredations.

Peshawar itself was quiet, and apparently most of the assaults have been withdrawn under heavy bombing. One party attacked the cantonments, however, inflicting a scattering rifle fire that did no damage. They withdrew at dawn.

Meanwhile, fresh troops arrived on an armored train from Lahore. The city gates were opened for it, but ordinary trains must stop at Nowshera and the passengers continue here by taxicab.

The six squadrons of army airplanes on duty in the sector are credited with a breaking up the plans for a mass attack on Peshawar. In one day these machines dropped 6,000 small bombs, and they have made daily attacks on various groups. As one instance they spotted the 1,500 Massalos who attacked Badama Post, and wounded 20 of them.

Will Oppose Stevens

Independent Labor Candidate Announces His Intention Of Running In East Kootenay.

Cranbrook, B.C.—Opposition to Hon. H. H. Stevens in the by-election in East Kootenay, where the Minister of Trade and Commerce, will seek election shortly, dropped up here. William Robson, diannet from the Provincial Labor Bureau on Monday, announced he will oppose Mr. Stevens at the by-election as an Independent Labor candidate.

Mr. Robson, who has been identified with Labor interests since 1889, and was formerly of Nanaimo. He has been employed with the Labor Bureau for the past seven years. Action of district labor union is determined at a meeting to be called within a few days.

M. McLean, of Fernie, Conservative, won the East Kootenay seat in the recent election, and resigned to make way for Hon. H. H. Stevens, defeated in Vancouver and given a portfolio in the Bennett administration.

Massey Interviews Premier

Ottawa, Ont.—Following a three-quarter hour conference between Premier R. B. Bennett and Hon. Vincent Massey, in the prime minister's office in the East Block, Mr. Bennett stated, "I asked Mr. Massey to see me and we had a very satisfactory talk." The prime minister went no further than that, and Mr. Massey, when leaving, declined to discuss the visit.

Wins Scholarship

Lloydminster, Sask.—Delbert Clarke, of Lloydminster district, graduate from the University of Saskatchewan with high honors in history and economics, has been awarded a \$500 scholarship for 1930-31, from the Canadian Pioneer Problems committee. The award was made from Queen's University, Kingston. He will study history under Prof. A. S. Morton, of the University of Saskatchewan.

Across Continent In 12 Hours

Valley Stream, N.Y.—Beating by more than two hours the transcontinental air record Col. and Mrs. Charles A. Lindbergh took from here last April. Capt. Frank M. Hawke flew from Glendale, Cal., to Curtis Field recently, in 12 hours, 20 minutes and three seconds.

B.C. Miners Entombed

Merrit, B.C.—One man was killed and 30 are entombed as the result of an explosion in the Colmont Colliery, Colmont, near Princeton. Word reached here of the disaster, and plans are being considered to send men to help free the entombed miners.

Plane Saves Life

Burlington, Vt.—Anthrax antitoxin, sped here recently from Montreal by aeroplane, and dropped by parachute, saved the life of a bush-factory employee suddenly stricken with the deadly, fast working disease.

Alberta Protests

Claim That Foreign Immigrants Are Being Dumped In Province.

Edmonton, Alberta.—Capt. E. M. Johnson, superintendent of the Soldier Settlement Board here, has been asked by the Department of Labor, at Ottawa, to investigate charges that 200 German immigrants were "dumped" in Alberta last week. The inquiry has been requested as the result of a telegram of protest sent to Premier R. B. Bennett by Hon. George Hoodley, acting premier of Alberta.

Denial of the allegations has been made by the steamship company concerned, and by the editor of "Der Herold," German newspaper here, but Walter Widmer, secretary of the Association of German-speaking workers, insists the charges be leveled are well-founded.

UNEMPLOYMENT SURVEY IS MADE BY GOVERNMENT

Ottawa, Ont.—Hon. G. D. Robertson, Minister of Labor, announced recently, that the government is making a quick survey of unemployment conditions in Canada, and that the employment service council has been called to meet here on August 21 to consider information which will have been gathered by that time.

After the council has discussed the situation disclosed, recommendations will be made for consideration of the government and will form a basis for unemployment relief measures to be submitted to parliament at the special session early next month.

In the last day or two, the minister stated, the Department of Labor has communicated with all the provinces and with the mayors of municipalities with population of 10,000 or more, asking them to advise the extent of unemployment and to estimate what the situation will be this coming winter. They have been asked to send the information in within 10 days, so that the department will be able to sift the data and have it ready for the meetings of the unemployment service council.

Wheat Exports Increase

Nearly 900,000 Bushels Exported From Vancouver In One Week.

Vancouver, B.C.—Nearly 900,000 bushels of wheat were exported during the past seven days, according to the weekly report of the Vancouver Board of Harbor Commissioners.

The actual total for the past week was 899,100 bushels. The export this season to date is 1,570,285 bushels, as compared with 431,098 bushels at the corresponding date last year. The elevators had in stock at 8 a.m., a total of 6,649,529 bushels, and the railways had 1,518,300 bushels on British Columbia divisions, or in terminals here. There are ships in port for 170,156 bushels.

Injured In Car Collision

London, Ont.—Hon. Donald Sutherland, Minister of National Defence; Franklin Smoke, M.P. for Brant, and J. L. Stansell, defeated candidate in Norfolk-Eggle, were slightly injured when their automobile struck a truck and overturned in a ditch.

JAP PARTY TOURS CANADA

Leading business men of Japan, arriving at Vancouver recently from the Far East, aboard the Canadian Pacific liner "Empress of Canada," received an official welcome from Mayor W. H. Malhe, and representative Canadian business men during their two-day stay in the Canadian west coast port. The Japanese party is headed across Canada on a national tour if inspection, then going to New York to visit principal cities of the United States, returning to Victoria, B.C., September 4th, by way of San Francisco and Seattle. The party includes prominent merchants, department store owners, Soichiro Sato, chief engineer of the Japan Artificial Ice Company, and Shigetaro Matsui, advisor to the Hirohito overseas development association. While in Canada and the United States they will make close studies of the industries and commercial ventures in which they are interested.

GLOBE CIRCLING FLIGHT ENDS IN CRASH

John Henry Mears, of New York, who took off from Roosevelt Field in globe-circling flight in an attempt to beat Graf Zeppelin time for the same trip but crashed at Harbor Grace, Newfoundland. His plane was wrecked.

Meeting Of C.M.A.—Tariff Section

Understood That Organization Is Opposed To High Duties.

Toronto, Ont.—Manufacturers representing every branch of industry in Canada, were represented at the meeting of the tariff section of the Canadian Manufacturers' Association held here.

Officials of the organization declined to give out anything for publication regarding the meeting, which was the regular gathering of the section and holds all its meetings in camera.

It is understood the question of advanced duties on boots and shoes, leather goods, automobiles and automobile accessories and other items were discussed.

The tone of the meeting is said to have been against high duties generally, with a moderate increase on some Canadian lines being advocated as a help to Canadian trade and the reduction of unemployment.

The matters dealt with at the meeting will be submitted to the executive council meeting of the association, to be held after the regular meetings of the transportation, commercial intelligence, and industrial relations committees within a short time.

Liquor Restrictions

New Brunswick Regulations Aimed To Prevent Excessive Drinking.

Fredericton, N.B.—Addition restriction calculated to reduce drunkenness under the operation of the New Brunswick Liquor Control Act, has been authorized by the provincial cabinet.

The regulation states that "after conviction of selling or keeping liquor for sale, or of drunkenness, or for being found drunk twice within 12 months, a person shall not be entitled to purchase liquor for three months after conviction."

Compulsory Military Training

Wellington, N.Z.—A bill for temporary suspension of compulsory military training has been introduced in the House of Representatives by the government. It is intended as a measure of economy.

Fire Destroys Quebec Village

Property Damage Is Estimated At \$200,000.

Masson, Que.—Between 590 and 600 persons are homeless, and nearly 100 houses destroyed—such is an estimate by Rev. Monsignor Rouleau, parish priest of Masson, of the conflagration which swept this little town recently.

Mme. Joseph Lafamme died during the afternoon and although not injured in the fire, it is believed the shock hastened her death. Property damage was estimated at \$200,000. No one was killed and no one received serious injuries in the blaze.

This well-ordered community on the banks of the Lievre River, 21 miles from Ottawa, was bawling a devastation, of a character difficult to describe. An area of over a quarter of a mile square which this morning housed nearly 120 families was simply a heap of smouldering embers. Red tongues of flame licking up from piles of charred debris spoke eloquently of the disaster which had befallen Masson.

Restrict Immigration

Dominion Government May Take Steps To Regulate Entries.

Ottawa, Ont.—Indications are that steps will be taken by the Dominion Government to restrict immigration to Canada. While no official announcement was made at the conclusion of a meeting of the cabinet, it is understood that the matter of immigration was under discussion.

Any action taken, it is believed, would be aimed at the restriction of newcomers from European countries so as not to add to the unemployed. It is rumored that the so-called "railway" agreements respecting immigration will not likely be renewed, especially under present provisions. A statement on the subject of immigration may be issued shortly.

SAYS JUSTICE TO ALWAYS GOVERN ADMINISTRATION

Ottawa, Ont.—Hon. Arthur Saupe, postmaster-general, in a statement declared that "justice, honesty and economy" would be his policy in administering the post office department.

The text of the statement of the postmaster reads:

"Justice, honesty, economy, such shall be my policy in the administration of the post office department. The law which governs us shall be respected with discrimination and the regulations shall be observed with the greatest discretion.

"Racial, religious or political fanaticism shall never prevail with us. I shall continue to consider them as the most dangerous enemies of the country.

"I shall follow to the letter the policy of an honest man and a good Canadian, directed by the head of the government; a policy of peace, concord and of sound protection which will permit the rational development and utilization of all the desirable resources of our country.

"The employees who have, without reserve, conformed to the law, understood their duty in their observance of impartiality and who have impartially shown the respect due to the political authorities or their accredited representatives have nothing to fear from me.

"I shall make a distinction between the latter and those who have constituted themselves the active agents of their party or the carriers of lies and infamous calumnies. It would be unjust and cruel, for instance, to put out on the street, without reason, a good father of a family who has been in office for a number of years and who might find it difficult to work elsewhere.

"It is I believe in the post office department that certain classes of employees are the most exposed to indulge in political partisanship.

"A careful inquiry will be made in regard to everything concerning my department, in order to avoid, as far as possible, injustices and errors. I am not infallible but if I should commit an error, I shall do my best to repair it.

"The assurances given to me by the deputy minister, whom I have known for a long time, as well as by the heads of other branches, justify my belief that I shall be able to carry out, with success, the administration of my department.

"I also greatly appreciated the act of courtesy and deference of my predecessor, Hon. Mr. Veniot, who came joyfully to call upon me and to give me appropriately certain important information."

IS SATISFIED WITH RESULTS OF WHEAT PARLEY

Toronto, Ont.—Expressing complete satisfaction with the result of the conference of western premiers and the final conference at Ottawa, when officers of the wheat pool, the provincial premiers and Prime Minister Bennett discussed the financing of Canada's grain, Hon. J. T. M. Anderson, premier of Saskatchewan, left for Regina.

"A fine time," was his first word. "I'm perfectly satisfied with the result of our visit in the east. No, I'm nothing further to say about the wheat situation. It has been pretty thoroughly done up the past two days.

"But in our last conversation you will recall I spoke of some new plan. First is the establishment of a correspondence high school course whereby children of settlers and farmers in remote areas — any child more than four miles from a high school—may take the courses by mail and write off the examinations each year at the nearest examination point.

"We hope by this that many more will be able to avail themselves of higher education than is possible at present. Along the same line we are instituting this fall the course in elementary prospecting for farmers and farmers' sons, so they will be able to assist in mining development in the north.

"This falls in line with our assumption, this October first, of our own natural resources. We are planning to develop our resources to the best of our ability and will leave nothing undone which we believe should be done."

Red Menace In China

Communists Advancing Against Nanking and Other Important Points.

Nanking, China.—Communists were reported advancing against the Nationalist government capital and the sister cities of Hankow, Han-yang and Wuchang, 600 miles up the Yangtze River from the sea.

This city was a scene of senseless and appeared doomed should the Reds continue their threatened attack. Few defenders remained within the 35 miles was circling the capital, practically all troops having been drawn to fronts on which the government and northern rebels are fighting for supremacy in China.

"The Chinese war, here as peasants turned Communists, appeared in surrounding towns armed with rifles.

Many suspected Communists were summarily executed at Hankow. Thousands of terrified Chinese poured into the city, frightened from their outlying homes by the invaders.

Eskimos Bound For Cuba

Make Journey By Dog Sled and Canoe From Arctic Circle To Southern Climate.

Burlington, Iowa.—The Eskimos and the Canadian guide who left the Arctic Circle last year and hoped to reach Cuba next, resumed their journey by canoe today, after an overnight stop at Burlington.

The Eskimos, Charles Fialinshuk and his two sons, led by Frank O'Grady, said they left The Pas, Manitoba, March 21, 1929, went to the Arctic Circle, returned to The Pas, and then set out for the south last winter by dog sled.

They continued by sled, they said, until the ice broke up. At Granite Falls, Minn., they launched their 18 foot canoe, and have travelled by that mode since. They expect to reach Havana early in 1931.

Makes Altitude Record

Regina, Sask.—Creating what is believed to be a record for western Canada, and breaking the Regina altitude flying record, P. B. Keffler, of the Regina Flying Club, climbed to an altitude of 13,350 feet over the city Tuesday afternoon, August 12. As Regina is about 1,800 feet above sea level, Pilot Keffler actually reached the height of more than 20,000 feet.

Nebraska Tourists See West

Winnipeg, Man.—On their way to the Pacific Coast, 175 "corn huskers" from Nebraska, invaded Winnipeg en route to Vancouver. Travelling over the lines of the Canadian National Railway the "corn huskers," who are gathered from the rural population of their native state, are seeing for themselves the glories of Western Canada.

Life In the Arctic Region

Royal Canadian Mounted Police Have Plenty Of Adventures

Bailing recently on the S.S. Boethic, was a detachment of Royal Canadian Mounted Police, on route to the eastern Arctic archipelago, where they will spend two years before again returning to civilization.

Corporal Jacobs and Constables Denech and Margella, were the first of the detachment to reach North Sydney. They were followed by Constable Foster, of Fredericton, and later, by Inspector Joy, with the balance of the party which numbers 12 men.

The "Boethic" also carried supplies for the various Mounted Police posts in the eastern Arctic archipelago, and will bring out the members of the force which the present party is going in to relieve.

The life of the Mounted Policemen in Arctic is very adventuresome, as described by one of the party. When they reach the main supply point, they will be broken up into parties of two, which will patrol their respective routes. Each member of the force is supplied with a large snow knife, and when on the trail when making camp at night, they seek a spot where there is good pack snow, and from this, cut out blocks with which to make an igloo. These snow houses, when first made, offer no other ventilation than that which comes in through the blocks of snow, the doorway being closed up after the occupants get inside. After a while, the moisture from the breathing, and also the heat from the fire, causes a coating of ice to form on both sides, and it is necessary to punch a hole through the top. They are made large enough to accommodate a man comfortable in a sleeping posture.

The food usually taken on the trail is bacon and dried caribou meat, beans, coffee, tea and sugar. They dress in fur coats similar to the Eskimos, and each of the parties has an Eskimo guide and interpreter attached. These guides acquire a position of authority among their own kind, and they are all anxious to work for the Police.

In the early days, infanticide was practiced by the Eskimos, when hunting was bad. This has been largely stamped out through the efforts of the police, who stock emergency relief rations at strategic points, to supply the Eskimos when times are bad.

One of the members of the party was present at the hanging of the two Eskimos who had murdered the interpreter, and he stated that it had a very salutary effect on the natives. The whole village gathered together, and the reason for the execution was explained to them through an interpreter. He remarked that the Eskimos are rapidly assimilating the idea that the white man's law must prevail.

Asked if there was any lawlessness in the country, he stated that the Eskimos on the whole, were very orderly, and that if anyone broke the law, it was a very hard matter to escape punishment, particularly in cases of capital crimes, as it was impossible to get out of the country without coming in contact with one or another of the natives, and in this way, the police are able to trace the movement of the culprit.

He referred to the peculiar way in which news seems to travel in the Arctic, stating that he had had several demonstrations of the quickness with which it is carried by what is known as the "moccasin" route. Just how the news travels so quickly, is a mystery. Whether it is telephony or some sort of signals system, the police have never been able to ascertain. In giving an illustration, he said an Eskimo had stated that a party would arrive the next day, from a place 1,500 miles distant and, sure enough, the next day, the party turned up, but as to how the Eskimo obtained this information, they were not able to find out. When asked about it, the Eskimo said: "Me no sabee, but walk, you see."

The British people have no intention of dropping the reins of empire because some of the steeds are restless.

"Can you lend me \$5?"
"I will lend you it when I come back from Paris."
"Bother! Are you going to Paris?"
"No."—Gutierrez, Madrid.

W. N. U. 1851

Side Hill Cougars Are Only Myths

American Naturalist Runs To Earth Mythical Stories Told To Tourists

The side hill cougar, whose legs on the left side are worn shorter than those on the right through continual perambulations around the slope of a circular mountain and the wampus which always goes backwards up a hill and yodels like a Swiss climber when he gets to the top, after all are only myths painted by glib-tongued guides upon the credulous imaginations of visitors to the mountains.

This, at least, is the conclusion reached by Richard W. Westwood, of Washington, D.C., secretary of the American Nature Association, who, with number of members of the association, has just finished an extended trail trip through the mountains of Jasper Park.

"At Maligne Lake," said Mr. Westwood, on his return to Jasper Park Lodge, "we were told we would find the side hill cougar and the wampus on their home grounds. We found, however, no tracks going uphill backwards, nor any trails running in circles around the mountains."

"What we did find around the largest glacial fed lake in the Rockies," continued Mr. Westwood, "were chipmunks which had left their trees and lived in the ground like gophers, and seagulls which had forsaken the sea for this inland retreat. But perhaps our most remarkable discovery was to come upon the nesting grounds of four rare birds, the Arctic horned lark, the rose finch, the golden crowned sparrow and the timberline sparrow, all within a radius of one square mile in a meadow above the lake."

Naval Reductions
Three United States Battleships To Be Retired This Fall

Rear Admiral Hughes, chief of the U.S. naval operations, has announced that the battleships "Wyoming," "Utah," and "Florida" would be retired this fall in accordance with the terms of the London naval treaty.

Admiral Hughes said decision was reached at this time as an economical move. The gross saving to the United States is estimated at \$4,000,000 annually, but the net saving will be less since the personnel of the ships will be distributed among other vessels.

The "Wyoming" is the flagship of the fleet. Admiral Hughes said, and its place will be taken by the "Arkansas." Retirement of the three vessels will reduce the number in the fleet to 15.

Where Canada Leads

World's Largest Aerial Photographic Fleet Now In Action

Twenty-six airplanes, working in thirteen detachments, are now engaged throughout Canada in aerial photography and survey for the Dominion Government. For the past few years Canada has been the leader in the work of taking photographs from the air for map making and for aerial surveys of large areas of practically unexplored territories. This year's programme of such work has been the world's largest aerial photographic fleet on the task, and it is hoped that before the end of the season another 100,000 miles of country will be recorded on photographic negatives.

Passing Of The Iron Horse

Electrification Of Railways Is Proceeding Very Fast

Older generations are continually reminded that "the horse has gone." And now we are told that the "Iron Horse" is doomed.

Samuel M. Vaulin, builder of locomotives, foresees an era of intense competition between steam and electricity for the railroads. "Electrical equipment," he said in a recent speech, "is available in terms of speed and horsepower that exceeds anything that might be hoped for with the steam locomotive." And he went on to declare a belief that east of the Alleghenies the population is dense enough to warrant the electrification of the railways.

But the Iron Horse will make a determined stand. That is shown by the improvements now being made. Wonderful as it is in speed, power and economy, the builders are now making use of roller bearings and new schemes of lubrication bound to add years to its life. Mr. Vaulin predicts that it will be a half century at least before the Iron Horse is finally knocked on the head.

Passing Of The Iron Horse

Electrification Of Railways Is Proceeding Very Fast

Older generations are continually reminded that "the horse has gone." And now we are told that the "Iron Horse" is doomed.

Samuel M. Vaulin, builder of locomotives, foresees an era of intense competition between steam and electricity for the railroads. "Electrical equipment," he said in a recent speech, "is available in terms of speed and horsepower that exceeds anything that might be hoped for with the steam locomotive." And he went on to declare a belief that east of the Alleghenies the population is dense enough to warrant the electrification of the railways.

But the Iron Horse will make a determined stand. That is shown by the improvements now being made. Wonderful as it is in speed, power and economy, the builders are now making use of roller bearings and new schemes of lubrication bound to add years to its life. Mr. Vaulin predicts that it will be a half century at least before the Iron Horse is finally knocked on the head.

But 1960 is far away, events move rapidly and Mr. Vaulin has a natural feeling for the locomotive. Possibly the passing of the Iron Horse may be nearer by a decade or two than he predicts. But the end of the rivalry cannot be doubtful. The electric locomotive has the advantage in speed and horsepower already, and who knows how soon the adverse item of expense may be turned the other way?

But what an era that of the Iron Horse has been! How historical and romantic! Think of the long Pacific roads meeting across a continent, the golden spike driven, the two locomotives nosed together and the shaking of hands across the gap! No wonder the world feels an affection for the noisy, smoky, shrieking monster that has served it so well.

But we have seen the horse go, and the child now born is very likely to witness the disappearance of the Iron Horse. Some day, none can tell just when, both the animal and the steam locomotive will be curiosities in museums. It is written.—Minneapolis Journal.

Poultrymen Meet
A delegation of the Poultry Science Association, composed of teachers and investigators in the University and experimental stations of the United States and Canada, held their annual convention at MacDonald College, Montreal, recently. One hundred and fifty members attended the convention, at which papers were read dealing with phases of the poultry industry.

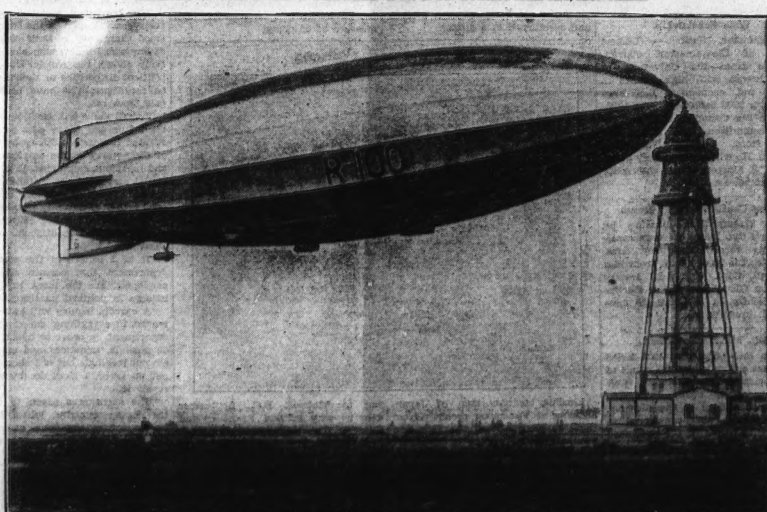

Real Efficiency
A man appeared in a police station and said:

"Oh, in regard to the watch I reported was stolen yesterday, I have since found that it is not lost at all."

"You are too late," replied the superintendent. "The thief has been arrested."

Central Australia is to be mapped by air photographs.

LANDING OF THE ENGLISH DIRIGIBLE R-100 AT ST. HUBERT AIRPORT, MONTREAL

The photograph reproduced above shows highlights of the actual landing of the English dirigible R-100, after her long historic voyage from Cardington, England. A striking view of the great airship in position, snugly made fast by the nose to the giant tower at St. Hubert Airport, Montreal, after the ground crew and skilfully handled her arrival.

The Northward Trend

Northern Limitation Of Wheat Growing Area Is Extending

In recent weeks hundreds of Canadian settlers have joined the rush northward in Saskatchewan where thousands of acres of homestead lands have been available. Last year the number of new homesteads settled in northern regions of the province reached into the thousands and the movement has persisted in volume this season.

A few years ago northern Saskatchewan was considered little more than a wilderness of muskeg and rock. Few settlers fringed living north of 53, where early frosts were possible. But pioneers of the north have found that Reward wheat and other hardy varieties grow quickly in the well drained fields north of 53. St. Walburg has become an important railway town. Meadow Lake has been embraced by "civilization." Onion Lake is often in the news and some of the best crops in the province are reported along the Big Saskatchewan.

It is significant that many of the settlers in the northern districts are seasoned farmers from the prairies, men who know soil, moisture requirements and above all, the qualifications of pioneering in a new country.—Regina Leader-Post.

Will Have A Trade

Sir Esme Howard, British Diplomat, To Take Up Bookbinding Craft

After thirty-six years in the British diplomatic service Sir Esme Howard says:

"I am terribly tired of the sound of my own voice."

At the age of 66 he has decided to go to Italy and learn how to bind books.

"Unfortunately," says Sir Esme, "I never learned my handicraft. I hope now to make good this defect and become a bookbinder. Even if bookmaking is a small thing, I console myself by saying that to have bound one book really well is to have added to the stock of beautiful things in the world."

These few words reveal a philosophy simple and esthetic and satisfying. The standard set up by a famous British diplomat who held that a gentleman should never speak French well enough to be taken for a Frenchman. The King's younger son, however, does not subscribe to this theory. He speaks French faultlessly in the manner of the French-Canadian.

A Manufacturing Centre

Calgary Occupies A Prominent Place As An Industrial City

Only eleven cities in Canada produced goods, in 1928, with a higher gross value than Calgary (at \$42,418,079), according to the annual report on general manufactures issued by the Dominion Bureau of Statistics and received by D. E. Black, chairman of the Alberta Development Board, southern section. The cities having a higher gross output were: Montreal, \$55,311,571; Three Rivers, \$45,441,169; Quebec, \$44,608,105; Toronto, \$50,544,323; Hamilton, \$16,282,255; Ottawa, \$84,894,229; Ottawa, \$61,612,232; Kitchener, \$50,117,175; London, Ontario, \$48,337,680; Winnipeg, \$105,456,065, and Vancouver, \$94,131,608.

Benjamin Franklin attended school only about two years—between the ages of eight and ten.

Language Spoken By Prince

Accent Of The Prince Of Wales Has Been Changed By Extensive Travels

The Prince of Wales does not speak the King's English. That is to say, the heir to the British throne has developed an entirely independent pronunciation different from that in vogue in the royal circle of Buckingham Palace, or the upper strata of aristocratic London society.

In the first place, the prince talks more rapidly than his father or anyone else belonging to the older generation. He does not talk slang, however, although he knows all the words.

The change in the prince's pronunciation and accent was observed by F. G. Blandford, England's best known authority on pronunciation. In a lecture to the Cambridge University local lecturers, Mr. Blandford declared that there was a general and widespread change in the pronunciation in the realm, and he cited the Prince of Wales as a typical example.

The prince's wide travels through America, Canada and Africa are thought to have influenced his speech considerably. One of the things he astonished his parents with upon his return from the American trip was the expression, "I guess so."

The prince has never been an adept at the once so fashionable and highly artificial Oxford accent, with its affected drawl and note of superfluity and haughtiness. His intonation comes nearest to that of cultured Canadians, and which is distinguishable from the somewhat nasal Yankee speech.

As for his vocabulary, he has a remarkable knack of conforming to the speech of those conversing with him, no matter in what part of the English-speaking world he may find himself. He knows, for instance, that to call a man a "good grater" is a term of complaint in Australia, while it would amount to an insult on the North American continent.

His French incidentally has a slight trace of accent. This is not looked upon as a fault by any means. In this respect, he is right in line with the standard set up by a famous British diplomat who held that a gentleman should never speak French well enough to be taken for a Frenchman. The King's younger son, however, does not subscribe to this theory. He speaks French faultlessly in the manner of the French-Canadian.

Hotel For Lisbon

British May Erect A Fine Modern Hotel In Lisbon, Portugal

The project for erection of a deluxe hotel in Lisbon is being considered by a British syndicate, which recently sent two representatives to survey possible sites.

These were Arthur Tester, representing the financial end of the business, and Robert Eichenbronner, a German architect.

In case the hotel project is carried through, it will be erected in the Edward VII. Park, and will contain about 420 rooms. It probably will be four stories high, and the estimated cost is \$50,000 pounds sterling.

The hardest and heaviest wood in the world comes from the tropics, while the softest and lightest comes from the temperate.

Automobiles And Railways

Motor Car Making Inroads On Railway Traffic In States

William Lyon Phelps, of Yale University, writes in the New York Evening Post as follows:

In all the bewildering changes of modern life, none is more striking than the change in transportation. As Charles Merz has pointed out, Henry Ford has put the American world on wheels. To see the main street in every town and village choked with automobiles has become so familiar a spectacle that it is only with an effort we remember how recent is this transformation.

In an enormous number of American towns, the sidewalks are being narrowed in order that there may be more room for parking motor cars. Nobody walks any more.

The automobiles have played the deuce-and-all with railways; in the Thruway of Michigan, where I live in the summer, passenger trains have been almost entirely withdrawn, because they do not pay. And this section is a fair sample of what has happened elsewhere.

On the other hand, through trains for long distances have been improved, both in speed and in luxurious equipment; from Boston to New York, to Philadelphia and Washington, to the South, the trains are faster and better; the same is true of westward expresses.

I shall be glad when omnibuses supplant trolley cars, and the ugly tracks are removed from city streets and country highways. Furthermore, in the city there is nothing that makes more noise than a trolley car, except two trolley cars.

Gold Rush In Australia

Discovery Of Gold Nugget Creates Much Excitement

Discovery in Australia of a 30-ounce gold nugget at Tranaganilla, Victoria, has started a new gold rush. More than 250 prospectors, most of them driving cars, have already reached the field and pegged out claims.

Australia today was in the throes of the greatest gold fever in many years. Seven expeditions with full transport equipment, including airplanes, trucks, and camel caravans, the prospectors backed by many thousands of dollars and city outfits staffed by experienced pioneers, have been fitted out for penetration of the waste areas where traces of gold have been found. Hostile bushmen already have caused considerable trouble for some of the prospectors.

The prospectors are looking particularly to what is known as the centre of Australia, an area about 4,000 miles square. This district, which is virtually unexplored, is believed to contain rich mineral areas.

Discovery of the Tranaganilla nugget created a tremendous interest in the Australian gold fields.

One expedition, led by Donald McKay, noted Australian prospector, has just returned from Central Australia, where it made an extensive airplane survey. Mr. McKay brought back to Sydney maps and other data he collected for use in further prospecting.

Automatic Phones For London

London's plan to have only automatic telephones is making steady progress, and millions of dollars will be spent on the work. The ultimate number of automatic exchanges, serving about 750,000 telephones, is 150. In Britain there are already 350 automatic exchanges, and last year's expenditure on telephone development was \$47,500,000.

Mr. Goodpaster—"You are getting on in years. You should turn your thoughts toward heaven."

Mr. Oldsmith—"On the contrary, I am thinking of getting married again."

Half of the world doesn't know how the other half lives—but, oh, how they would like to find out!

Hungary now has 25,000 shoes and boot makers owning small shops.

Paris' automobile Salon will be held in October.

"You want me to go and work with you? Have you a watch?"

"No."

"Then how on earth will we know when we're thirsty?"—Pages Galloway, Yverdon.

ENO'S FRUIT SALT

The Safest, Surest Way To Health

The daily dash of ENO in a glass of water every morning is the safest, surest way to inner cleanliness. And to be inwardly clean is to be healthy. ENO'S "Fruit Salt" is a delicious health beverage that tones and sweetens the entire system. For constipation, acid stomach, fatigue and biliousness it is without equal. But remember, only ENO can give ENO results.

CHAPTER XXVI

On a morning in August Charmian unlocked the door into what had so recently been John Carter's office, and opened the casement wide. The floor was no longer covered by the soft Bokhara; the windows were bare of hangings; the bookshelves empty. Only the tall brass andirons gleamed a welcome from the blackened hearth; and the girl wiped the dust from Great-grandfather Davis's old chair, and looked appraisingly at her surroundings.

As she did so a brisk step sounded on the sidewalk, and in another moment the doorway was blotted out by George K.'s ample figure.

"What you're up to this morning?" he questioned genially. "Saw the other chair, but I'll perch on this if you don't mind. Uncle George, I'm sick with indecision on a lot of subjects; but one thing's clear: I've got to give up the school."

"Come in," smiled Charmian. "You're the one person in Wickfield I want to see."

"You flatter me," replied George K., and smiled.

"Sit down," she said. "This is the only chair, but I'll perch on this if you don't mind. Uncle George, I'm sick with indecision on a lot of subjects; but one thing's clear: I've got to give up the school."

"I've been expecting that," the banker responded. "Once last night Salina was saying that Grandma—well..."

He hesitated; but Charmian asked bravely: "Then others have seen it, too?"

George K. nodded, and the girl went on: "She's failed this summer—not in her mind, thank heaven! but she's not so brisk and happy as she was a year ago. I've got to be with her more. It was hard last winter,

for ANY CHILD

WE can never be sure just what makes a child restless, but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as your child has a fretful spell, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of colic. Sometimes constipation. Or diarrhea—a condition that should be checked without delay. Just keep Castoria handy, and give it promptly. Relief will follow very promptly. If it doesn't, you should call a physician.

**Fletcher's
CASTORIA**

W. K. U. 1881

was what attracted the young man. Don't lose sleep over this. Now I must run in and speak to Grandma. Charmian—"George K. turned as he reached the door. "What's the matter with John Carter? Salina says the life has gone out of his step in the last month. Have you broken his heart?"

Charmian smiled. "I have an uncomfortable feeling that the consensus of opinion in Wickfield is that he has broken mine!"

"He hasn't—has he?"

George K. looked so genuinely solicitous that the girl said quickly: "What nonsense!—though if he had I wouldn't admit it for a kingdom. As Grandma frequently remarks, 'We Davises have our pride.' The only thing that's breaking my heart."

Uncle George, in the thought that I haven't been clever enough to keep the Davises homestead in the family. As for John Carter, if the life has gone out of his step, I'm truly sorry. He dropped in yesterday when I was at the library, and Grandma said he looked abominably tired. I'll run into his office this afternoon with an imaginary ache, and see what I can do about it. I'll brave even the Wickfield gossip to help as a good friend as he has been to us."

"Well, so long," smiled the banker. "I'll let you know what I hear from your purchases, my dear."

Charmian stood at the window watching him cross the driveway and disappear under the golden pines. "I believe," she mused, "that the whole thing will be easier now it's settled. This will make a darling living room. Grandma will get a better view of the street from this window than from the old one. I can sleep on a cot in here, and Grandma can have the other room. Of course it's the only thing to do. Why, hello! where did you come from?"

This question was addressed to John Carter, who stood, as George K. had an hour earlier, in the doorway. At Charmian's greeting he came forward, tossed his hat onto the desk, and answered: "I couldn't resist the lure of that open door. I never pass near Charmian, without a homesick twinge. Never again shall I have an office that so exactly suits me; and I miss you and Grandma more than you'd guess. You see, there's not enough sickness in this office of year to keep me from thinking of things that had better be forgotten. Well, let's forget 'em!" he said more cheerfully. "What brought you here this morning, my I ask?"

Charmian told him, adding that the old doctor had made the plan for her; and that George K. had a purchaser for the house.

"So you see," she ended, "everything's done—except telling Grandma. I admit that I can't quite face the thought of that ordeal."

The young man looked very serious as he replied: "Let me tell her, Charmian. I'm handed to breaking unpleasant truths to people. Besides, unless I'm mistaken, Grandma is fond of me. I can break the news as painlessly as you can."

He was seated on Great-grandfather Davis's old desk, and the girl looked up at him from the chair, her blue eyes misting.

"John Carter, I ought to be ashamed. I don't believe a girl ever had such friends before. Here's Uncle George wanting to give me an allowance; so I needn't sell the place; and you—Well, I hope some day I can repay you for all you've done for me."

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbearing. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and it felt fine. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. 24, St. Catharines, Ontario.

Lydia E. Pinkham's Vegetable Compound

"I'm sure they're not," was the emphatic answer. "It's questionable

SCIATICA?

Here is a never-failing
form of relief from
sciatic pain!

Take Aspirin tablets and you'll avoid needless suffering from sciatica—backache—and similar excruciating pains. They do relieve; they don't do any harm. Just make sure it is genuine.

ASPIRIN

TRADE MARK REG.

and been to us this year. But I guess I'll have to tell Grandma myself. It seems somehow... if I ought to; but if my courage deserts me at the last moment I'll make an ignominious retreat and send for you. Now that's enough of my troubles for one day. Let's hear yours for a change."

Late that afternoon when Charmian returned from a call at the Merys', she found Grandma, bright-eyed, at the window.

"I've been gallingivanting," she explained as the girl kissed her. "Just after you started, along came the doctor and made me go for a ride. We've been clear to Eastboro, and I don't feel one mite tired. I will say that his car's a sight more comfortable than Edward Howe's was."

"I'm glad you've had such a good time," smiled Charmian. "Mrs. Merys has a new picture of the baby; and Mudge wrote that she'd send me another view. He's terribly cunning—looks for all the world like a miniature George. What do you want for supper, Grandma? It's almost time."

(To Be Continued.)

New Northern Air Route

From Scotland To Winnipeg By Air Sees a Possibility

The leader of the British Arctic Air Route Expedition, H. G. Watkins, makes out a good case for air travel from Scotland to Winnipeg by way of Greenland. On the line

from Feroe Island and Iceland, and nowhere are there more than three hundred miles of water to be flown. There are, of course, the dangers of fog and the Greenland ice cap with its menace to aviators.

The Air Ministry is making a survey of flying conditions between the Faroes and Iceland. The expedition will winter in Greenland, spending their time on the highest part for meteorological research. Canada will be expected to supply details about the crossing of Davis Strait and Baffin Land, and the feasibility of a route thence to Southampton Island.

Hudson Bay, down to Fort Churchill, and thence to Winnipeg. Mr. Watkins predicts that they will do "novel and exciting work" in Greenland. And if the famous ice cap presents no serious obstacle to the venture, the prospects for an air route from Scotland to Winnipeg will begin to look bright.

—New Outlook.

Island Disappears

Volcanic Disturbance Causes Island To Sink Beneath Sea

A despatch from Java says the island of Anak Krakatau, or translated into English, Child of Krakatau, which recently had a height of 170 feet, recently disappeared beneath the surface of the sea during intense activity of nearby Krakatau volcano which is throwing out fountains of fire.

From May to August, 1883, there occurred there probably the most tremendous volcanic eruptions of modern times, by which two-thirds of the island was completely swept away. A gigantic wave was formed by which 20,000 people perished, the wave propagating itself as far away as the English Channel.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Eucalypti for relief. Its effects are sure and lasting.

Shortage of Radium Radium supplies in the Congo may decrease rapidly owing to the exhaustion of the ore, according to a Johannesburg, South Africa, newspaper, which declares its information is from a reliable source. The result, it is predicted, will be a radium famine with the present price of \$60,000 a gramme being doubled or tripled within a year or two.

Wood Menace The time of year has arrived when a red blow can be struck at the weed menace. After-harvest cultivation is one of those oldtime methods that should be revived.—Farmers' Advocate.

Minnard's Liniment removes Warts, relieves Bunions.

English Boy Scouts To Visit Jasper

Will Spend Six Weeks in Roughing It Over Mountain Trails

With three "billy cans" and two saucapans, home made tents and rubber ground sheets, and only two blankets apiece, 16 members of the 9th troop of Boy Scouts, Leeds, England, passed through Winnipeg recently over the lines of the Canadian National Railways for Jasper National Park, where they will spend six weeks in "roughing it" over the trails of this famous game sanctuary.

The boys, who are all pupils of the Leeds Modern Grammar School, are in charge of Dr. G. F. Norton, headmaster of the school, and arrived in Canada on the S.S. Megantic. After visiting Ottawa, they took train for the west and, enroute, have cooked their own meals, used their own blankets and made up their own berths.

When the boys arrive in Jasper, they will leave the main roads and hike into the back country, carrying their food on their backs. Tentative trips have been planned to the Medicine Lake district and to the famous Columbia Ice Fields. Possibly a climb of Mount Edith Cavell may be attempted, as there are a number of enthusiastic alpinists in the party and, although the main object of the visit is to explore the districts not generally visited by tourists, a day or so may be set aside for the ascent.

On leaving Winnipeg, the boys were eagerly looking forward to a period of "real roughing it" in the Canadian Rockies.

Rob It In For Lame Back—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The oil will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that it is an excellent article.

Radio Announcer Is Made Indian Chief

First Radio Announcer in the World To Be Appointed Chief of an Indian Tribe

The first radio announcer in the world to be appointed chief of an Indian Tribe is George Wright, of CNR, the Vancouver broadcasting station of the Canadian National Railways.

Wright has been made a chief of the Squamish Indians, and given the title of Chief Sa-Sayo-Sa-Nay-Chim. His name, translated, means Chief Flying Voice. The honor was conferred upon Wright for his assistance in calling to the dying chief of the tribe a daughter who was some hundreds of miles away in a remote section of British Columbia. The last request of the chief was that his daughter be brought to see him.

The museum of comparative zoology, of Harvard, recently received a collection of about 8,000 Hymenopterous insects from Chile.

One Thing At A Time

Auto Driver Finds He Cannot Attend To Two Things At Once

"If at first you don't succeed, try it later."—Reviewed by E. F. Gills, of Evanston, Ill.

Gills, driving home, attempted to light a cigar. Pulling out his mechanical cigar lighter he snapped it. It clicked, but there was no spark, no flame. Changing hands, he tried again with the same result. Then he tried both hands, holding one over the lighter to protect the flame, if any. He gave a vicious push with the other hand.

He regained consciousness in a hospital, where they told him he had run into a tree, that he still held the lighter when they pulled him out, and that he would recover.

Gyproc Makes Summer Homes FIRE-SAFE!

PROTECT your family by making your Summer home draught-proof, dust-proof and fire-safe. The new Ivory colored Gyproc, that does not burn will render you this service at small cost.

Use it for structurally strong walls, ceilings and partitions. It needs no decoration (when panelled) but you can tint, paper or plaster it if you wish. It is easily and quickly applied, is a permanent asset, and is vastly superior to other building materials.

Your dealer's name is listed below. Ask him today for full information on Gyproc Wallboard or send for interesting free book "Building with and Remodeling with Gyproc."

Abernethy Notes

Tom Morrison has returned home
after having attended many of the
important race meets in the province,
and reports a successful tour. His
race horses, Fighting Frank,
Kennel, and Gold Ring, netted him
at Lacombe the Lacombe Derby,
and the open half mile, both won
by Fighting Frank; also the roman
races. At Rimby, the Rimby Sweep-
stakes and Rimby Derby. At Ponoka,
the heat race. At Lethbridge he won
the 6 furlong dash, and succeeded
in breaking the track record in the
5-8 mile dash. Jockey Coughlin had
the mounts on these horses.

This is an enviable record, for
our local horseman, and we hope
he will be as successful at the
Brooks race meet, early in September.

Mr. Morrison has sold "Fleur"
and "Pull o' Fun" to Les Flett,
from the Handbills, and is contemplat-
ing buying another race horse
for next season.

Mrs. Phipps and Miss Agnes
Phipps spent the week-end at the
Robinson Ranch, after visiting at
Edmonton and Gull Lake for the
past two weeks.

Miss Hargreaves has secured the
position of teacher at the Abernethy
school for the coming term. Miss
Trennum having resigned.

Mr. and Mrs. C. Ramsey and
Mrs. T. Morrison have returned
after holidaying at Banff and Lake
Louise.

The Misses Robertson entertain-
ed in honor of Mrs. Anderson of
Calgary, and Mrs. Clarke of
Vancouver.

United Church Sunday School Picnic

The picnic held on Wednesday,
August 13th, under the auspices of
the Crossfield United Church Sunday
School was, to say the least,
a decided success. Everyone de-
clares that a good time was spent.
The day commenced with meeting
in the church at 10 a.m., singing a
hymn and prayer.

A happy crowd of children were
loaded in two trucks, kindly placed
at their disposal by Mr. F. Baker
and Mr. Chas. Weber; followed by
a few cars conveying the elder por-
tion of the picnicers, to St. Georges
Island. The destination was reach-
ed in good time and the ladies soon
got busy filling the tables with
eats of every description, and it
did one's eyes good to see those
happy and contented children—yes,
and the grown up one's too—dis-
pose of the good things provided.
After this ice cream was served to
everybody. The tables were clear-
ed and the company adjourned to
the more open part of the grounds
and races and games were the order
of the day.

Old Sol did his best to make
things warm, but nobody seemed to
mind him as there was lots of ice
cream and lemonade provided.

About 5 p.m. supper was served
and once more tables were set with
all kinds of eatables, which were
soon made short work of. After
which a stroll round to see the birds
and animals in their various envi-
ronments, and about 6.30, Superin-
tendent Waldox gave the call for
all aboard and a start was made
for home, Crossfield being reached
by about 8 o'clock. On arrival in
town the children let the inhabi-
tants know that they had arrived
home by the yells which the young-
sters of Crossfield are famed for.

Much praise must be given to the
officers, teachers and the assisting
ladies for the way in which every-

Local and General

Miss Evelyn Stephens of Ed-
monton is the guest of Miss Jean
Scott.

Mrs. Thos. Tredaway and
daughters are visiting friends at
Champion this week.

Adam Cruickshank, two Kol-
stad boys from Airdrie, Florence
Cruickshank and Norma Miller
left on Monday on a fishing trip
to Pine Lake.

Crops east of town are expected
to average far better than was at
first anticipated. Several farmers
state that wheat will average bet-
ter than 20 bushels to the acre.

Miss Vera Metheral, is now
forming her fall class of piano-
forte pupils. Students prepared
for either Toronto Conservatory
or London Academy examina-
tions. Special tuition in theory

Irvin Eike, west of town, has a
good crop of oats, and it is expected
that the 100 acres will average
at least 50 bushels to the acre.

Saskatoons are plentiful this
year, and right now you can get
all kinds of them about thirty
miles west of town.

With The Horseshoe Players

Aldred Bros. again successfully
defended the McCool trophy on
August 17th, when they defeated
the challengers Sam Scott and Bill
Miller in two closely contested
games. Scott and Miller were
leading in the first game until near
the end, when Jim Aldred put on
two fingers with two shoes. This
was the blow that killed father.
The final score was 21 to 19.

The second game was much like
the first, the challengers getting an
early lead, only to be overtaken
and defeated by a score of 21 to 17.

Both were good games, in fact,
the best yet. Ringers were num-
erous, but as usual Jim and Bill
Aldred, made plenty of them.

W. Pogue has put in a challenge
and is now looking for a partner. The
challenge has been accepted by
Aldred Bros. and the games will be
played in the Park on August 24th,
at two o'clock.

NOTICE

Will all those who have borrowed
shoes from the Club, please return
them to the Chronicle office.

thing past off. The picnic will long
be remembered by all those present
as one big day, that was enjoyed
by everybody.

Card of Thanks

The officers and teachers of the United
Church Sunday School wish to thank
Mr. Chas. Weber and Mr. Fred Baker
who so kindly donated the use of their
trucks, also to the two drivers, and
especially for their careful driving; and
to all those who assisted in making the
picnic the success it was.

I SAW:

Joe Gilchrist looking over the
wonderful growth of weeds in his
garden.

Matt Hewitt going round with-
out his hat so as to stimulate the
growth of his hair.

"Ike" telling his friends about
the bank bandits he has met.

Walter Spivey exercising his
family of dogs on Sunday.

Happy MacMillan erecting a
radio in his office.

Constable Jarman checklog up
on the hobos early on Sunday
morning.

A foot race down the Main St.
at 1 a. m. on Wednesday morning.
Dan McCaskill exercising that
beautiful single driver of his.

George Murdock driving his car
into town on Tuesday and looking
very much alive.

George Lim trying to sing
"When It's Spring Time in The
Rockies."

Chris Asmusen harvesting his
crop of oats—6 acres.

Bill Blackadder telling friends
of his excellent crop of wheat.

Wai Laut's staff working over-
time setting up combines, binders,
and giving out repairs.

Lloyd McRory looking for a
human fly to paint the flag pole on
the fire hall.

Doug Bills, dressed up in a pair
of last year's overalls, plenty dirty,
repairing a threshing machine and
making himself useful on the farm
of Evert Bills.

Joe Gilchrist and his assistant,
Mac with the baseball moustache,
are house cleaning at the station
this week.

Two Auto Accidents on Monday

Two auto accidents took place
on the highway north of town on
Monday. Both accidents happen-
ed within thirty feet of one another,
and directly opposite Bob Arnott's
gate. The first accident
occurred at noon, when an Essex
coupe, south bound, turned out to
pass a car and the wheels locked,
the car skidding into the ditch
and upsetting. The driver escap-
ed with a shaking up, while the
car was considerably damaged.

The second car, an Essex coach,
was proceeding north when it hit
a chuck hole, and the driver put
her foot on the accelerator instead
of the brake and the car dove a
nose dive, jumping clear across
the road, turning completely over.
Damage to the car was estimated
by Mr. Baker at over \$500; while the
three occupants were very fortun-
ate in escaping with a few cuts,
bruises and a bad shaking up.
